

## Kavach Order Instructions

The silver medallion known as the kavach is a mathematical yantra which is worn as a protective shield.

The kavach contains the esoteric numbers of the functional benefic planets in your Vedic (eastern sidereal) astrological birth chart (natal horoscope).

The kavach is made to strengthen all the benefic planets in your chart. By doing so it also reduces the afflictions caused by the malefic planets, both present in the birth chart and by current transit positions.

In the USA the kavaches have been provided to more than 1500 people over the past seven years. Everyone is free to return them for up to three months if the results are not there. Less than 20 of the 1500 kavaches have been returned, as people get positive results. Please keep in mind the kavaches are hand-made and some are not as pristine in appearance as others. There may even be some cuts, blemishes, and light or blurry numbers. Professor Choudhry, the esteemed elucidator of the Systems' Approach, has assured that these cause no problem. As he says, the real power comes from the purity of the astrologer recommending the kavaches and the manner in which they are created and empowered.

By special arrangement, Dr. Miller's astrological consultees and patients are able to purchase their kavach directly from David Hawthorne, the USA source, for \$175 plus \$10 postage and insurance (regularly \$200 if ordered directly from India). To order your kavach the following information is required:

1. Time of birth
2. Place of birth
3. Date of birth
4. Name, address & telephone number
5. Identification of yourself as Dr. Miller's patient

This information plus your credit card account number and expiration date must be sent to David Hawthorne by e-mail to [david@astroview.com](mailto:david@astroview.com). If you prefer, the necessary information can be provided over the telephone by calling him at (641) 472-3799.

*The kavach reduces the deterioration of health and promotes prosperity and spiritual progress in our lives.*
